YEAR BOOK

1945-1946

TWENTY-THIRD SESSION

VOLUME TWELVE

DR. HAROLD A. SWALES
President

FOREWORD

May I, on behalf of the executive council, extend greetings to every dentist receiving this year book and a sincere invitation to you to join our Academy this year. I wish to thank those responsible for electing me president, and also for surrounding me with such a strong executive. We feel our responsibilities keenly and trust that we will justify your choice.

Now that the war is over many of those who have been serving so well in the Canadian Dental Corps will soon be taking their places in civilian practice. We welcome them back and want each and everyone to realize we have a special committee formed to be of whatever assistance possible in making the change. There are many things that each and every dentist can do to help these men and I solicit such support.

Our programme this year will again be headlined by the Winter Clinic, details of which appear in the following pages and I think it will speak for itself. The other features which are also outlined, are the result of serious thought and consideration, planned to bring our profession along to even higher ideals.

Trusting that each and everyone will get behind organized Dentistry, of which the Toronto Academy is an integral part, and face the future with such resolve that our beloved profession will soar to higher and higher levels.

HAROLD A. SWALES, President.

OFFICERS OF THE ACADEMY OF DENTISTRY

President—Harold A. Swales, 205 Yonge St.	WA. 3138
President-Elect—H. C. Bliss, 170 St. George St.	MI. 6022
Secretary—F. H. Shepherd, 1474 Bathurst St.	LL. 9456
Treasurer—J. H. Johnson, 230 College St.	MI. 4136
Past President—H. R. Skilling, 62 Richmond St. W.	EL. 8900

President—Harvey W. Reid, 195 Yonge St. EL. 9011
 Secretary—Don. W. Gullett, 211 Huron St. KI. 0134

DENTAL PUBLIC HEALTH COMMITTEE

The following Fellows have been appointed by your Executive to act on this committee:

W. A. Black, 86 Bloor St. W.	KI. 8803
Walter Godsoe, 550 Kingston Road	GR. 9919
J. C. Fullerton, 2 College St.	RA. 1835
L. W. Backus, 151 Dupont St.	RA. 4380
V. S. Wilson, 2980 Dundas St. W.	LY. 6818

Throughout the past year the committee under the leadership of Edgar A. White made a valuable contribution to the programmes of many organizations. Once again it has been amply demonstrated by the many calls which the committee received from Home and School Clubs, Red Cross Groups, Industrial organizations, Church Associations and others of similar character that Mr. and Mrs. Canadian are anxious to know more about the facts which concern their teeth. A most ambitious project, which will bring home to High School students the priceless value of good teeth, is nearing completion and will be ready for presentation this autumn.

Once again the sign "under new management" is out, but as is so often the case, the leaders of today owe success not to themselves, but to the inspiration and quiet support of those who were the leaders yesterday. Many of the profession are excellent speakers and give unsparingly of their talents, but there are many who have yet to give their "maiden" speech. To men in the practice of dentistry a day does not pass without at least one short talk on dental education being given to a patient. Your committee asks that those who fall in this latter class think about these short talks and use them as a basis for a longer address, so that when the telephone rings they too will be ready to say, "I shall be glad to speak to the group, when and where does it meet."

GEO. C. HARE, Chairman,
2487 Bloor St. W. LY. 3452.

CALENDAR OF DENTAL MEETINGS

1945

- Sept. 12—Toronto East Dental Association—Golf Tournament.
 Oct. 4—Toronto East Dental Association—Ladies Night.

ANNUAL DINNER MEETING

Royal York Hotel, Concert Hall

6.30 p.m.

Wednesday, October 17, 1945

Photo by Karsh

NAPIER MOORE

Guest Speaker

Editor of Maclean's Magazine since 1926. Is also editorial director of the Maclean Publishing Company, Ltd.

Few men have a wider knowledge of Canada; he got it by incessant travelling and personal contacts in every corner of the Dominion. Canada is his favourite subject. He has lectured on it extensively in the United States. Last winter he did a whirlwind tour telling the story of the Dominion's war effort—22 lectures in 20 cities in 9 states in less than five weeks. Trips like that don't seem to bother him. When, a year or two ago, he flew back from Britain after visiting the Canadian army and air force overseas, he was launched forthwith on a Victory Loan speaking tour right across the country—12 speeches in 10 cities in 10 days.

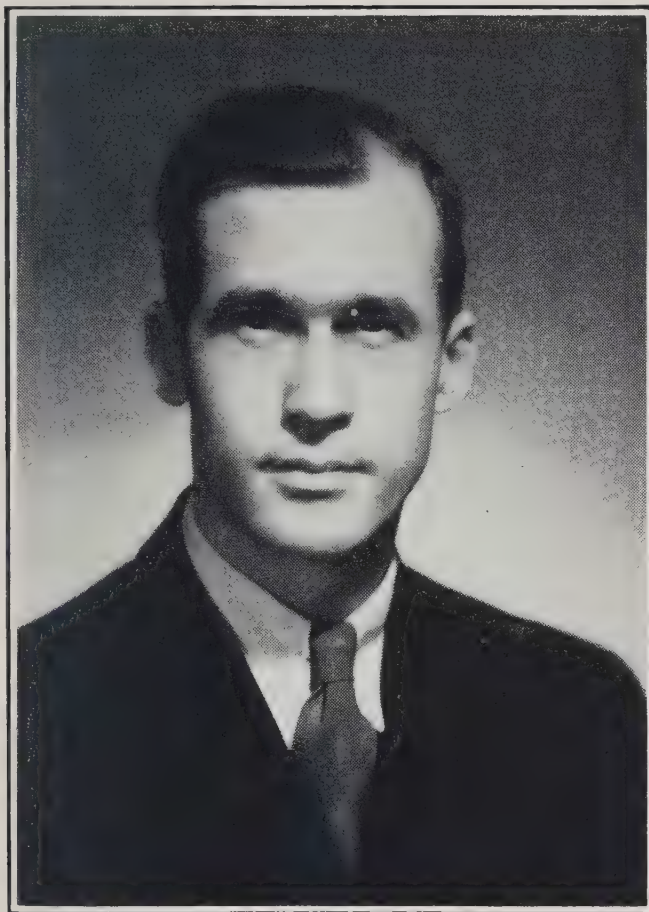

Before he went to Maclean's, he was for 10 years on the editorial staff of the Montreal Star, five of them spent as that paper's resident New York correspondent. In addition, he was American correspondent of the Australian Press Association. Prior to his Star connection he was city editor of the Montreal Daily Mail. And before World War I he was employed in Vancouver, and Victoria, B.C.

Your Council feels it has been very fortunate in securing Mr. Moore as guest speaker for our opening meeting.

FIRST GENERAL MEETING

Csler Hall, Academy of Medicine Building, Thursday, November 8 — 8.15 p.m.

This is a joint meeting with the Pediatric Section of the Academy of Medicine.

DR. J. HARRY EBBS

After graduation from the University of Toronto he was resident physician at the Sick Children's Hospital, of the Columbia Medical Centre, New York City. Before establishing his present practise of Pediatrics, he spent three years as resident physician and research pathologist in the Children's Hospital, Birmingham, England. He is now a member of the teaching staff of the Faculty of Medicine, University of Toronto.

DR. ROY ELLIS

Graduated from the Faculty of Dentistry, Adelaide, Australia, 1926, and the Faculty of Dentistry of the University of Toronto in 1929. Received M.Sc. (Dent.) in 1942 for work on Electrodeposition as applied to the dental field.

Member of the teaching staff since 1931. Present Status—Professor of Operative Dentistry and Director of the Clinic. Chairman Research Committee, Canadian Dental Assoc., member of the National Research Council's Associate Committee for Dental Research. Author of the text "Classification and Treatment of Traumatic injuries to the teeth of Children."

Subject: "SYMPOSIUM ON DENTISTRY FOR CHILDREN"

The clinicians will deal with the development of the child, and how this is related to the teeth, their structure and development, with particular stress on the periods of growth. They will outline some of the research which has been done in this field, and will discuss studies which have been carried on relative to the prevention of caries. Someone has said that "our mouths are 10-20 years older than our chronological age". The responsibility for the prevention of such a condition rests partly with the dental profession.

Dental cripples are born early in life and the great hope of preventing the development of such conditions lies in an active programme of preventive measures and the closest co-operation between the dentist and the pediatrician.

ANNUAL WINTER CLINIC
WEDNESDAY, NOVEMBER 28th, 1945
ROYAL YORK HOTEL

PROGRAMME SUMMARY

8.30 a.m. - 9.30 a.m. REGISTRATION

9.30 a.m. - 12 Noon GROUP CLINICS

12.30 p.m. - 2.00 p.m. LUNCHEON

Speaker:
Rev. David A. MacLennan, D.D.

2.30 p.m. - 5.00 p.m. GROUP CLINICS

6.30 p.m. - 7.45 p.m. DINNER
Entertainment

8.30 p.m. - 10.00 p.m. TABLE CLINICS

A detailed programme will be available later.

SPECIAL WINTER CLINIC MEMBERSHIP

The Winter Clinic is very popular, increasingly so among dentists outside the Toronto area. The Academy Council offers to all out-of-town practitioners the privilege of attending the Winter Clinic for the fee of five dollars.

ANNUAL WINTER CLINIC

CLINICIANS

Dr. O. S. Clappison, Toronto.	"Crown and Bridge Prosthesis"
Dr. J. Frank Giffen, London.	"Partial Dentures. Functional Partial Denture Impressions"
Dr. Irvin H. Ante, Toronto.	"Complete Denture Prosthesis"
Dr. Frank Martin, Toronto.	"Immediate Complete Denture Technique"
Dr. J. F. Cooney, Woodstock.	"Complete Denture Technique in Three Appointments"
Dr. J. M. Sheldon, Toronto.	"Operative Procedures for Porcelain Jacket Crowns"
Dr. J. B. Pepper, Toronto.	"Shaping and Staining Anterior Porcelain Teeth for Immediate Dentures"
Dr. M. J. Quigley, Toronto.	"Simple Gold Foil Restorations"
Dr. Gordon W. Johnston, Toronto.	"Amalgam Restorations"
Dr. F. F. Baker, London.	"Root Canal Therapy"
Dr. G. Vernon Fisk, Toronto.	"Intercepting Malocclusion"
Dr. H. Murray Robb, Toronto.	"The Status of Peridontia in Modern Dentistry"
Dr. R. E. Diprose, Toronto.	"Radiodontic Technique"
Dr. George A. Morgan, Toronto.	"Oral Surgery for the General Practitioner"
Dr. M. A. Cox, Toronto.	"Nutrition and its Relation to Dental Caries"
Dr. G. H. W. Lucas, Associate Prof. of Pharmacology, University of Toronto.	"Pharmacology of Some Drugs Useful in Dentistry"
Dr. W. B. T. Amy, Toronto.	"The Psychological Aspect of Dentistry"
Mr. E. H. Greppin, Lighting Authority, The Wilmot Castle Co., Rochester, N.Y.	"Scientific Lighting for Dental Offices"

ANNUAL WINTER CLINIC

DR. O. S. CLAPPISON

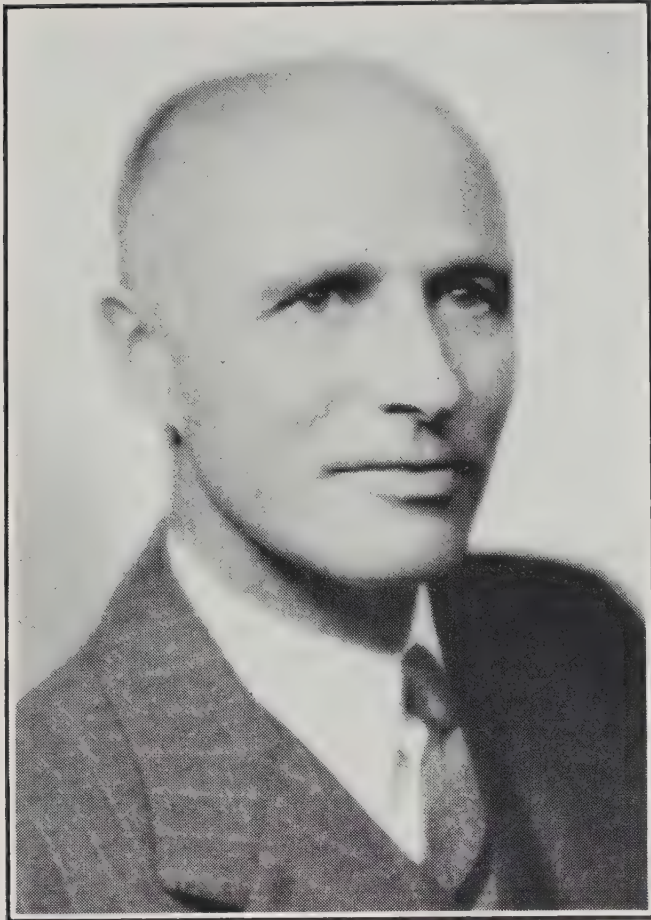

Dr. Clappison graduated from The Royal College of Dental Surgeons, University of Toronto, in 1908. Following a year's practice in Winnipeg, Dr. Clappison practised in Hamilton until 1925, when he moved to Toronto. He is a Past President of the Hamilton Dental Society and was one of the originators of The Hamilton Study Club. He also served several years on the Board of Governors of the Ontario Dental Association.

Dr. Clappison is one of the foremost authorities on Crown and Bridge Prosthesis and has been a frequent clinician at the Ontario Dental Association meetings and also at Chicago and Detroit. He has taken post-graduate work in New York and Chicago and has designed numerous dental instruments of great value in this field.

The Clinic

The introduction to this clinic will be a plea for better Crown and Bridge construction. The common errors of Crown and Bridge Prosthesis will be emphasized. The importance of relating fixed bridge construction to the whole dentition and the needs of the patient will be stressed. The types of preparation for abutments, the advantages and disadvantages of impression materials, selection of pontics, their construction and the relating of units, also the possibilities and limitations of acrylic resins in Crown and Bridge work will be covered. Time permitting—the “when-where-why-how” of precision bridge work.

ANNUAL WINTER CLINIC

DR. J. FRANK GIFFEN

Subject: "PARTIAL DENTURE PROSTHESIS. FUNCTIONAL PARTIAL DENTURE IMPRESSIONS"

Dr. Giffen graduated from The Royal College of Dental Surgeons, University of Toronto, in 1920.

Since graduation he has been in general practice in London, Ontario, and is a Past President of the London Dental Society. He is a valued member of the Board of Directors of the Royal College of Dental Surgeons for District No. 6, having served continuously since 1940.

Dr. Giffen has done considerable post-graduate work in Complete and Partial Denture Construction and is eminently qualified to present this subject. In his clinics he has the pleasing faculty of presenting the solution of difficult problems of partial denture prosthesis in a manner that all may understand the practical application of his technique.

Dr. Giffen will preface his clinic with a short talk on Partial Denture Prosthesis. He will then demonstrate with a patient, his technique of taking a Functional Partial Lower Impression. In addition he will show models demonstrating the step by step procedure from the taking of the impressions to the completion and insertion of the case.

ANNUAL WINTER CLINIC

DR. IRVIN H. ANTE

Since graduation from The Royal College of Dental Surgeons, University of Toronto in 1914, Dr. Ante has been continuously engaged in teaching as well as in private practice. He is Professor of Crown and Bridge Prosthesis, also Clinical Demonstrator in the Prosthetic Department, Faculty of Dentistry, University of Toronto.

Dr. Ante's reputation as a clinician and essayist is well established throughout Canada and the United States.

Colored photography is Dr. Ante's hobby. The excellence of his color work has received high commendation from The Eastman Kodak Company and other authorities in this field.

Subject: "COMPLETE DENTURE PROSTHESIS"

This course on Complete Denture Procedure has been so designed to be of great value to the general practitioner. It is devoid of frills, full of condensed information and helpful suggestions, that point the way to sound conclusions. It should help solve complete denture problems.

ANNUAL WINTER CLINIC

Guest Speaker for Luncheon

THE REV. DAVID A. MacLENNAN, D.D.

Dr. MacLennan is the young, energetic, able and courageous minister of Timothy Eaton Memorial Church, Toronto.

Born in Boston, Mass., he is a son of the manse with a Scottish-Canadian background. His early education was received in Boston and in British Columbia. He is a graduate in Arts from the University of Manitoba and in Theology from Manitoba College. His Bachelor of Divinity was obtained at McGill University, Montreal, and he received his degree of Doctor of Divinity from Victoria College in 1943.

His message is always of interest and can be entertaining, instructive, challenging or perchance a combination of all three elements as the occasion or subject demands.

The members of the Academy are honoured in having him as their guest speaker.

SECOND GENERAL MEETING

Osler Hall, Academy of Medicine Building, Wednesday, January 16, 1946

MAYNARD K. HINE, D.D.S., M.S.

**Subject: "CORRELATION OF ETIOLOGY AND TREATMENT OF
PERIODONTAL DISTURBANCES"**

After graduating from the University of Illinois, College of Dentistry, 1930, Dr. Hine earned his M.S. degree in Dental Pathology in 1932. He was a Rockefeller Fellow in Dentistry, Rochester, 1934-36. After being Associate Professor of Oral Pathology, University of Illinois and in 1944 Professor and Head of the Department of Periodontia and Histopathology, University of Indiana School of Dentistry. He was chosen Dean in 1945.

He has been associated with the American Dental Association Research Council, Indiana State, American Association for Dental Research; American Association of Dental Editors; American Association of Endodontists.

His fraternal organizations are Omicron Kappa Upsilon, Sigma Xi, and Delta Sigma Delta.

The various types of periodontal disturbances will be classified, and each type discussed according to diagnosis, etiology and treatment. The correlation of etiology and treatment will be stressed. A series of kodachrome slides will be used.

THIRD GENERAL MEETING

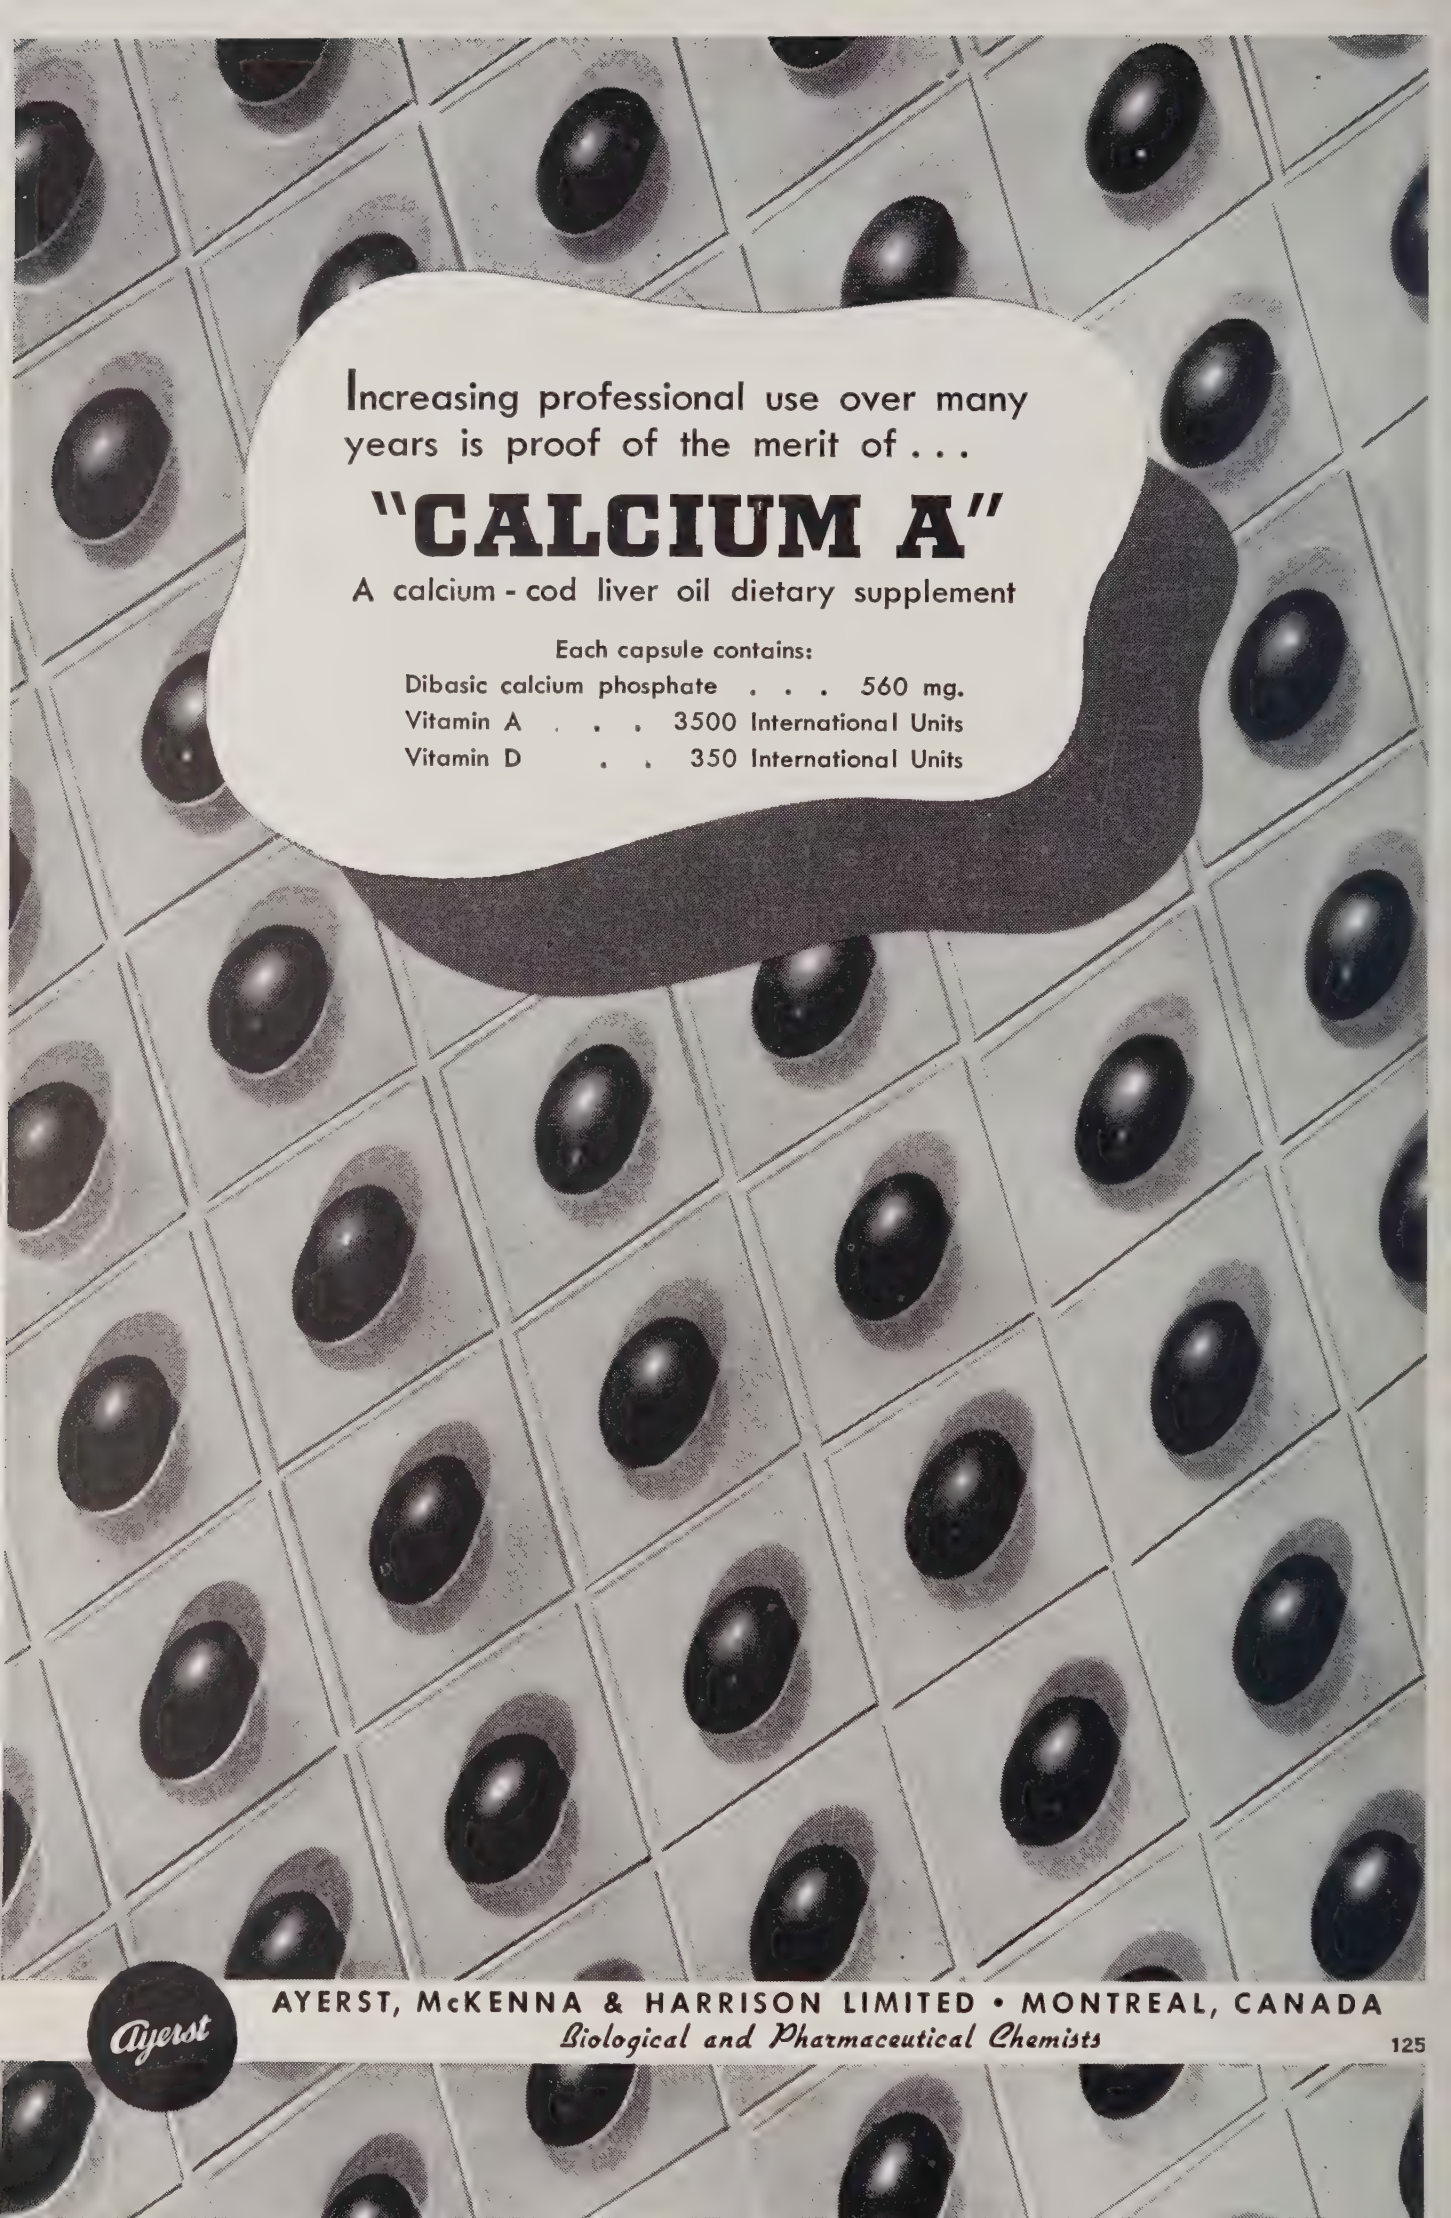

Osler Hall, Academy of Medicine Building, Wednesday, February 13, 1946

HAROLD M. VERNON

Subject: "ACRYLIC RESINS"

Harold M. Vernon was educated in Pritchett College at Glasgow, Missouri, College of Emporia, Kansas, Carnegie Institute of Technology, University of Pittsburgh. Since 1916 he has been engaged in research work on the precious metals and the acrylic resins. He was the first to develop and use the monomer-polymer methods of molding and processing acrylic resins for denture bases. He is now Vice-President, Technical Director, Vernon-Benshoff Company; member of American Academy for Advancement of Science, Pittsburgh Society of Plastic Engineers, Materials Group of International Association for Dental Research.

Increasing professional use over many
years is proof of the merit of . . .

"CALCIUM A"

Biological and Pharmaceutical Chemists

FOURTH GENERAL MEETING

Osler Hall, Academy of Medicine Building, Thursday, March 14, 1946

JOHN C. KRANTZ, Jr., Ph.D.

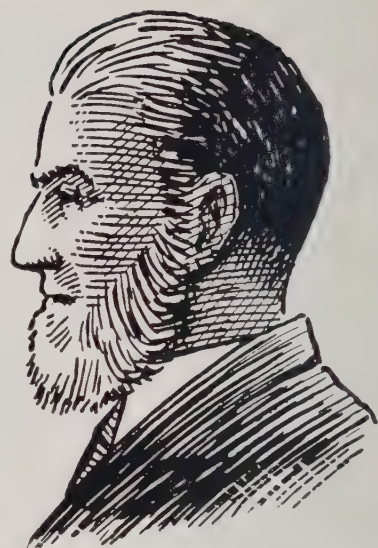

Born in Baltimore, Md., October 8th, 1899, John Krantz has enjoyed a brilliant career in the field of pharmacology.

During the years 1919-28 he received many degrees at the University of Maryland, progressing to a Ph.D. in 1928. At the same time he was professor of pharmacology and chemistry. His studies have led him to be Director of Pharmaceutical Research at Sharpe & Dohme, to the State Department of Health, to Johns Hopkins Hospital as well as being a member of various societies of pharmacology, biology and medicine.

Indeed he is enjoying a full life and should be proud of his achievements in his chosen field, and the assistance he has given to the progress of mankind.

BUILDERS of DENTAL SCIENCE

ENCOMIUM
TO A
GREAT
DENTIST

ASA HILL (1815-1874)

Eminent American dentist and contributor to dental art and science who invented the first dependable plastic temporary filling.

The achievements of the pioneers of dentistry were the result of conscious search which led to incalculable rewards in the improvement of dental materials and techniques. This spirit of scientific curiosity and investigation characterizes dentistry today more than ever. Among the notable advancements of present-day dental research are Vitallium and The Microcast Technique, which during the past decade have provided the profession with a better material for full and partial dentures and a more precise technique for better oral adaptation and function.

*The Microcast Process—
perfected for the precision
casting of Vitallium cases.*

TORONTO EAST DENTAL ASSOCIATION

DR. A. ROY KERR, President

Our Association is again over the top in war services donations, special mention is due Dr. W. C. McLean for his letters and services to our army confreres.

Your Executive has prepared an instructive programme. Clinic meetings will be held at Toronto East General Hospital and will start promptly at 8 p.m. and conclude at 10 p.m.

We sincerely hope that before our season ends we will have our military associates with us again.

The 1945-46 Executive of the Toronto East Dental Association is as follows:

Immediate Past President.....	A. J. Vince
President.....	A. Roy Kerr
Vice-President and Cor. Secretary	W. C. McLean
Secretary.....	C. W. Smythe
Treasurer.....	J. H. Peters
Committee	Walter Godsoe, R. G. Knowles, J. Eldon Braund
Sports Secretary	Leon Hippwell
Academy of Dentistry Councillor	Earl Bancroft

PROGRAMME FOR YEAR

- September 12—Golf Tournament, Cedar Brae.
- Oct. 4—Ladies' Night.
- Nov. 12—Dr. Bothwell.
- Dec. 13—Bowling.
- Jan. 10—Dr. Mercer
- Feb. 7—Non-Dental.
- March 21—Dr. J. H. Johnson.

THE WEST TORONTO DENTAL SOCIETY

DR. J. GORDON CHALMERS, President

The West Toronto Dental Society, having just concluded a most successful season, is once again arranging the activities for the coming year.

We plan to have the usual four dinner meetings and a golf tournament. These meetings, to be held at the Boulevard Club, will be practical and instructive with the password "Good fellowship".

We hope that we shall have the pleasure of extending a "welcome home" to some or all of our members who have been absent in the Canadian Dental Corps.

We urge our members to attend all meetings and visitors will receive a warm welcome.

Tentative Dates of Meetings

November 21st, 1945	January 23rd, 1946	February 18th, 1946
March 24th, 1946	June 9th, 1946—Golf and Dinner	

OFFICERS FOR 1945-46

Past President	R. J. Marshall
President	J. Gordon Chalmers
Vice President	G. S. Paul
Secretary-Treasurer	R. C. Moore
Councillors	J. M. Cation

PAST PRESIDENTS OF THE TORONTO DENTAL SOCIETY

The Past Presidents of the Toronto Dental Society are to be identified hereafter as Past Presidents of this Academy. Below is a list of the Past Presidents indicating the year they held office:

Year	President	Source of Information
1891-92	N. Pearson	Old Dental Journal in Library
1892-93	J. B. Willmott	Old Dental Journal in Library
1893-94	N. Pearson	Old Dental Journal in Library
1894-95	W. E. Wonder	Old Dental Journal in Library
1895-96	G. S. Martin	Old Dental Journal in Library
1896-97	H. E. Eaton	Old Dental Journal in Library
1897-98	A. J. McDonagh	Old Dental Journal in Library
1898-99	J. E. Wilkinson	Old Dental Journal in Library
1899-1900	J. B. Willmott	Old Dental Journal in Library
1900-01	A. E. Webster	Old Dental Journal in Library
1901-02	F. D. Price	Old Dental Journal in Library
1902-03	W. E. Willmott	Old Dental Journal in Library
1903-04	G. S. Martin	Old Dental Journal in Library
1904-05	C. E. Pearson	Old Dental Journal in Library
1905-06	W. G. L. Spaulding	Old Dental Journal in Library
1906-07	J. B. Willmott	Old Dental Journal in Library
1907-08	R. G. McLaughlin	Old Dental Journal in Library
1908-09	A. J. McDonagh	Old Dental Journal in Library
1909-10	H. E. Eaton	Old Dental Journal in Library
1910-11	A. E. Webster	Old Dental Journal in Library
1911-12	A. D. A. Mason	Old Dental Journal in Library
1912-13	C. A. Kennedy	Old Dental Journal in Library
1913-14	W. E. Willmott	Old Dental Journal in Library
1914-15	G. W. Grieve	Old Dental Journal in Library
1915-16	F. C. Husband	Old Dental Journal in Library
1916-17	E. F. Arnold	Old Dental Journal in Library
1917-18	W. R. Amy	Old Dental Journal in Library
1918-19	J. E. Rhind	Old Dental Journal in Library
1919-20	R. D. Thornton	Old Dental Journal in Library
1920-21	W. H. Coon	Old Dental Journal in Library
1921-22	H. A. McKim	Old Dental Journal in Library

ACADEMY OF DENTISTRY PRESIDENTS

1922-23	R. Gordon McLean, (out of Practice)	Ho. 0422
1923-24	J. A. Bothwell	Ki. 6848
1924-25	Arthur Day, (deceased)	
1925-26	W. G. L. Spaulding, (deceased)	
1926-27	H. G. Robb	Ki. 5544
1927-28	R. S. Woollatt	Res. Hy. 2727
1928-29	W. B. T. Amy	Mo. 2310
1929-30	T. E. C. Butler	Ha. 5434
1930-31	E. C. Veitch	Ki. 1755
1931-32	J. W. McDonald (Army) No. 24 Training Centre, Brampton	
		Res. Hu. 9650
1932-33	T. R. Marshall	Wa. 4400
1933-34	E. A. Grant	Ki. 3745
1934-35	Frank Martin	Ki. 1053
1935-36	Wm. J. Kerr (deceased)	
1936-37	S. S. Crouch	Ki. 1647
1937-38	Harvey W. Reid	El. 9011
1938-39	Harold Hoag (deceased)	
1939-40	Wm. G. Trelford (army)	
1940-41	Edmund T. Guest (army)	
1941-42	Stewart A. MacGregor	Hu. 8230
1942-43	Lloyd M. Grose	Ha. 3133
1943-44	Charles McLean	Wa. 2236
1944-45	Harold Skilling	El. 8900

THE CANADIAN DENTAL ASSOCIATION

DR. HARVEY W. REID, President

On behalf of the Officers, Board of Governors, and Members of the Canadian Dental Association, greetings and best wishes to the Fellows of the Academy of Dentistry!

It is with great thankfulness that we all commence another year of study and fellowship—the first year after victory, and it is our hope that it will be your privilege to welcome back to your meetings large numbers of your men who have been in the Forces.

May I offer my congratulations to the President and Executive Council of the Academy and wish for them a year of satisfying accomplishment and much happiness in the knowledge that they have contributed to the progress of a fine organization.

DU PONT DENTAL FILM

Pull-a-tab package

★ **EASY TO OPEN**

★ **EASY TO USE**

One of the outstanding features of DuPont Dental Film is the Pull-A-Tab packet in which the films are contained. These exclusive DuPont packets are designed for easy use and easy dark-room opening.

Especially simple to place in the mouth, DuPont Pull-A-Tab packets hold their shape and give maximum comfort because of their rounded corners. The green tab clearly identifies the tongue side, and also indicates where to open the packet in the dark room. Each packet has a saliva-proof outer envelope and a special non-scratch paper lining in contact with the film emulsion for added film protection.

DuPont Dental X-Ray Safety Film, enclosed one or two per Pull-A-Tab packet, in either two or twelve dozen boxes, is obtainable through leading distributors.

ONTARIO DENTAL ASSOCIATION

DR. FRANK MARTIN, President

The Allies achieved Victory in 1945 and we celebrated by holding a Victory Convention, the success of which has been written into the archives.

The 1946 Convention will be held jointly with the Canadian Dental Association. The theme of the Convention will be "Homecoming"—a welcome home to those of our profession in the services who have been carrying the banner of Canadian Dentistry in foreign fields. We also hope to welcome home to their Alma Mater a large representation from all the provinces. This will be a special feature.

We have the rank and file of all services returning. The government has asked dentistry to take a part in their rehabilitation, namely the restoration of health and function of their dentition. True, we are not satisfied entirely with the financial picture; but I bespeak for the returning soldier your best efforts.

The past is behind, the future lies ahead. The status of dentistry has changed and will continue to do so. It behoves us, therefore, to keep well posted on these changes and to express approval or disapproval of them as they occur.

The children and youth of our country will have to be taken care of to the highest degree in health services; one of the most important of which is dental treatment. Committees of your various organizations are deliberating and planning how this can be accomplished to the best interests of all.

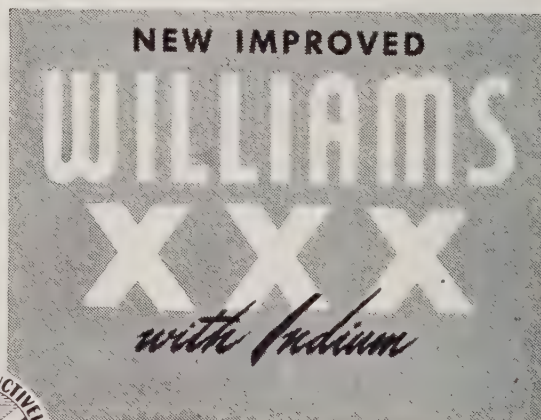

The Ontario Dental Association gratefully acknowledges the assistance given by the Academy of Dentistry in the past and appeals for your continued co-operation to assure the success of the 1946 Convention.

On behalf of the Officers and Members of the Ontario Dental Association, may I offer our support and assistance in your endeavours for the coming year and wish the Academy of Dentistry, Toronto, every success.

Truly significant superiority

● The superior physical properties and working qualities of the new, improved Williams XXX Partial Denture Casting Gold measure up to dentistry's highest standards...Casts smooth and dense...lustrous light coin color...highly resistant to discoloration. BLUE CROSS HOSPITAL PLAN

The Blue Cross Plan for Hospital Care is a non-profit service in the public interest, made available by hospitals through their own Association. An outstanding development in the field of health service, the plan embodies the principle of **voluntary** and co-operative self-help, yet retains the values inherent in private medical practice and hospitalization. It was inaugurated with the approval and cooperation of the Ontario Department of Health and is endorsed in principle by the Executive of the Ontario Medical Association. The Plan is designed to provide maximum hospital care at the lowest possible cost.

WHAT PLAN FOR HOSPITAL CARE OFFERS YOU

When your own physician says "You must go the hospital", as a subscriber to Plan for Hospital Care you will be entitled to the following benefits for yourself, your wife and each child enrolled, without limit as to cost in accordance with the terms of the subscriber's contract.

31 days of hospital care in the first contract year; 36 days the second year; 41 days the third year; 46 days the fourth year; 51 days the fifth year.

- | | |
|--|---|
| Semi-private accommodation. | Meals and dietary service. |
| General nursing service. | Basal metabolism tests. |
| Use of operating room as often as necessary. | Dressings and plaster cast materials. |
| Anaesthesia equipment and material. | Emergency hospital service following an accident. |
| Routine clinical pathology service. | Maternity care: One half the hospital charges (up to 12 days) after one year. |
| Electrocardiographic films. | |
| Routine bio-chemistry service. | |

Laboratory services and tests as listed above are provided when necessary to other treatment in hospital, but not solely for diagnostic purposes.

SOME OUTSTANDING FEATURES OF THE PLAN

- No physical examination, no health statement, no medical questionnaire.
- Hospital services are provided for every type of disease, illness or injury.
- No age limit for adults.
- Chronic or pre-existing conditions are covered.

Private accommodation, when available, may be had by payment of the difference in hospital charges directly to the hospital.

SEMI-PRIVATE SUBSCRIPTION RATES

- Single subscriber\$.75 per month
- Subscriber, wife and all children under 16 years of age.... 1.50 per month

It is a requirement of the Plan that all members of the group must pay for the same period and arrangements have been made to collect th subscriptions semi-annually in advance (\$4.50 semi-annual for single subscribers and \$9.00 for family subscribers). Applications, and cheques made payable to the Academy of Dentistry, Toronto, are to be sent to Dr. Charles McLean, 1503 Sterling Tower, Toronto 1. Final Date for Application: November 17th, 1945.

that MONOCAINE is MORE POTENT than PROCAINE!

Corneal Anesthesia in the Rabbit's Eye

	Anesthesia Duration in minutes (1%)	Minimum Effective conc. for 10 mins.	Relative Efficiency
Procaine	no anesthesia	3%	1
Monocaine	25 minutes	3/4%	4

Anesthesiology, Nov. 1942

Relative Efficiency On the Skin and Sciatic Nerve Block In the Frog

	Solution to produce anesthesia of skin in 20 minutes	Relative Efficiency	Solution to produce nerve block in 20 minutes	Relative Efficiency
Procaine	1%	1	1/4%	1
Monocaine	1/4%	4	1/16%	4

Journal of Pharmacology and Experimental Therapeutics, Jan. 1938

CONCLUSIONS

Monocaine 1 1/2% is equal in potency to at least 4% Procaine, but is of approximately the same safety as a 2% Procaine solution.

Monocaine 1 1/2% with Epinephrine 1:100,000 will produce profound and safe anesthesia in all surgical procedures, in cavity preparation, grinding, pulp extirpation, etc.

MONOCAINE 1 1/2%
EPINEPHRINE 1:100,000

PROCAINE 4%
EPINEPHRINE 1:50,000

TORONTO ORTHODONTIC STUDY CLUB

President.....	Margaret I. Cowan
President-Elect.....	Murray L. Simon
Secretary-Treasurer.....	Harold E. Leslie

The club's programme for the ensuing year will include business luncheons and evening sessions at which various types of orthodontic appliances and their relative values will be studied.

The members of the club are as follows:

H. G. Bean	Milton R. Culbert	S. J. Lesco
H. C. Bliss	G. Vernon Fisk	H. E. Leslie
C. A. Corrigan	G. W. Grieve	Murray L. Simon
Margaret I. Cowan	H. Halderson	Saul Simon
S. Stuart Crouch	W. R. Hendry	

ONTARIO SOCIETY OF DENTAL ORAL SURGEONS

The end of hostilities should mark the return to civilian life of an increasing number of service personnel from the Dental Corps and the re-establishment of practices interrupted by the war. Particularly as an organized group in this province we welcome back our own Oral Surgeons in the persons of Lt.-Col. Gordon Frawley and Major Roger Matchett whose association we have missed while they were in service.

The coming year may see many beneficial developments in dentistry with the pooling of knowledge between the service men and the civilian dentists. We are fortunate therefore in having Lt.-Col. Frawley occupy a senior executive role in our society during a period which may be referred to as one of reconstruction and readjustment.

1945-46 Officers

DENTAL NURSES' ALUMNAE ASSOCIATION OF CANADA

Through the kindness of the Academy of Dentistry, the Dental Nurses Alumnae Association is able to extend a cordial welcome to the class of graduate Dental Nurses of 4T5. Our alumnae meetings will be held the second Tuesday of each month. The programme for the year will be one of interest and enjoyment for each member. Our tentative programme for 1945-46 appears below :

- September 11—Speaker from Maclean Publishing Company.
- October 9—Mr. Conquergood—"Character Analysis By Color."
- October 18—Coffee Party and Dance—Royal York Hotel.
- November 18—Mother and Daughter Banquet—Mr. J. Brockie from
—Eaton Auditorium.
- December 11—Sleigh Ride—Steele's Corners.
- January 8—"Bring Your Doctor"—Mr. Reilly—Public Speaking.
- February—Annual Bridge.
- March 12—"Bring a Friend"—Mrs. Aitken on Cooking.
- March 29—Rummage Sale.
- April 13—Tea.
- May 14—Selected.
Convention.
- June—Graduation Banquet.
- June 11—Annual Meeting.

MORE THAN
45,000,000
INJECTIONS

NOVOCAIN PONTOCAINE COBEFRIN
NOTEWORTHY PROFESSIONAL CONFIDENCE

More than 45,000,000 injections since its introduction to the Dental Profession less than 5 short years ago — this record is eloquent evidence of the Noteworthy Professional Confidence which this superlative local anesthetic enjoys.

You, too, will find Novocain-Pontocaine-Cobefrin the type of local anesthetic you have often wished you had used — one producing a deeper anesthesia of more prolonged duration *without an increase in the vasoconstrictor*. It is ideal for routine use in cavity preparation, jacket crown preparation on vital teeth, preparations on hypersensitive dentin . . . in fact, all operative procedures involving the possibility of persistent pain . . . as well as in protracted surgical operations.

ONTARIO DENTAL NURSES' AND ASSISTANTS' ASSOCIATION TORONTO AFFILIATED ASSOCIATION

With the cessation of hostilities, there come multiple problems to be faced by those returning home and those who have remained at home. These problems will not only be personal, nor political, but we will face them in post-war dentistry. It is your responsibility and mine to be of any assistance possible in meeting and solving these difficulties.

The programme for the 1945-46 season of the Toronto Affiliated Association has been arranged with the intention of teaching us to meet a few of these problems efficiently. We invite every Toronto dental nurse and assistant to meet with us and enjoy the benefits from such associations.

On behalf of the members of the Toronto Affiliated Association, I should like to thank the Academy of Dentistry for the interest they have taken in all our activities and to extend our good wishes for a successful season.

ARLENE J. CREENY, President.

PROGRAMME FOR THE YEAR 1945-46

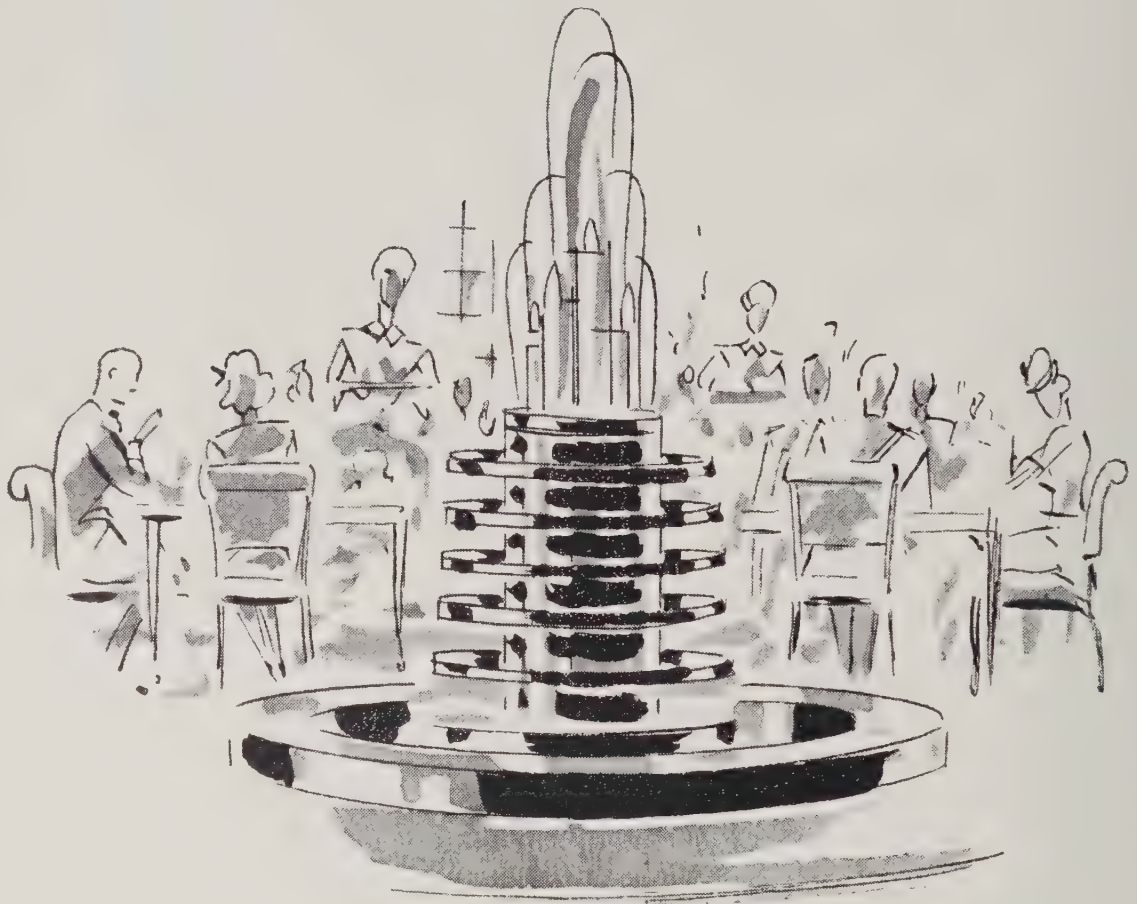

- September 10th—Opening Dinner. Rev. J. D. Parks, "Citizen Soldiers".
- October 1st—Dr. S. W. Leslie, "Causes and Effects of Fainting".
- October 15th—Dr. A. I. Willinsky's latest film on Mexico.
- November 5th—Selected.
- November 28th—Annual Winter Clinic in conjunction with the Academy of Dentistry.
- January 7th—Doctors' Night.
- February 4th—Sleigh Ride.
- March 4th—Selected.
- April 8th—Election of Officers for 1946-47.
- May 6th—Annual Meeting and Installation of Officers.
- June—Annual Picnic.

SEVENTH FLOOR

EATON'S-COLLEGE STREET

THE LADIES' AUXILIARY TO THE ACADEMY OF DENTISTRY AND THE CANADIAN DENTAL CORPS

MRS. R. W. MATCHETT
President

As we open our 1945-46 season the Ladies' Auxiliary offers its friendliest greetings to the Academy of Dentistry and the Canadian Dental Corps.

Our programme convener, Mrs. M. G. Boyes and her committee, have an interesting and instructive series of entertainment planned, in spite of handicaps of war time conditions.

With many of the boys still overseas, we are pleased that our war fund has received such a gratifying contribution—\$1,336 from the Victory Draw, thanks to the splendid co-operation from all.

Our other source of revenue for war comforts is the "Scrap Gold" project which realized \$527 last year. Mrs. A. F. Cooper and her committee are anxious to increase this amount and invite your support.

The Red Cross group with capable Mrs. G. W. Grieve in charge meets every Friday at 4 Albert Street and would appreciate more help from any of the ladies who will do sewing; and charming little Mrs. A. J. McDonagh is always on hand to distribute wool to the knitters.

The executive and members are making plans to increase our membership. We want every dentist's wife in Toronto and the surrounding area to join our group and enjoy the friendly contacts.

EXECUTIVE FOR 1945-46

Past President.....	Mrs. F. L. Dayment
President	Mrs. R. W. Matchett

PROGRAMME

- Thurs., Sept. 20th, 1945—Luncheon. King Edward Hotel. 12.45 p.m.
Speaker—Mr. C. W. Wright.
- Thurs., Oct. 18th, 1945—Membership Tea. 3-6 p.m. At home of Mrs. S. S. Crouch, 65 Highland Ave.
- Thurs., Nov. 15th, 1945—Luncheon. Royal York Hotel. 12.45 p.m.
Speaker—Kate Aitken.
- Thurs., Jan. 17th, 1946—Luncheon. Royal York Hotel. 12.45 p.m.
Speaker—To be selected.
- Sat., Feb. 16th, 1946—Bowling Party. 8 p.m. Olympia Bowling Club, 14 Queen St. East.
- Thurs., March 21st, 1946—Afternoon Meeting. Heliconian Club. 2 p.m.
Speaker—Rev. J. D. Parks.
- Thurs., Apr. 18th, 1946—Luncheon. Royal York Hotel. 12.45 p.m. Annual Meeting and Election of Officers.

The
Answer

S. S. White DENTURE ACRYLIC

A pure methyl methacrylate resin for denture bases. Contains no plasticizer or other ingredient that will limit the aesthetic life or service of dentures processed from it. It is strong, stable, and holds its color indefinitely.

There is always room at the top. This is the reason for the introduction of Denture Acrylic—there is always a demand for that which is good.

It is new, yet not new from the viewpoint of laboratory and clinical investigation. While materials for denture bases were being introduced in rapid succession, we were investigating . . . studying, discarding, searching anew, testing in the laboratory, trying out in clinical application.

Denture Acrylic makes its bid for your favor on a color and texture so deceptive that it defies detection at close conversation range . . . so comfortable that the patient is never denture conscious . . . so durable and serviceable that it will win lasting friendship of dentists, laboratory technicians, and patients everywhere.

S. S. WHITE COMPANY OF CANADA LIMITED

250 College Street, Toronto 2-B, Ontario, Canada

REPORT OF THE SECRETARY FOR 1944-45

I have the honour of presenting the twenty-fourth annual report. The session 1944-45 under the congenial leadership of Dr. Harold R. Skilling was one of the most successful in the history of the Academy. Much credit for the success of the year is also due to the members of the executive council and the ready co-operation of the District Societies.

The total paid up Fellowship is now 376 on a par with the previous high membership record. On the re-establishment of the dentists of Toronto and district, at present serving in the Canadian Dental Corps, a much increased membership is anticipated. Three Honorary Memberships were granted to dentists who have been in practice 50 years or more.

There were four general meetings and one special meeting, also one joint meeting with the Academy of Medicine. These diversified and highly instructive meetings were well attended. The Essayists during the season were as follows:

Miss Florence Horsburgh, M.P.—“Health Problems in England During War and Reconstruction Period.”

Walter T. McFall, D.D.S., F.I.C.D., Asheville, N.C.—“Dentistry for Children.”

Charles H. M. Williams, D.D.S., B.Sc., Toronto—“Rational System of Treatment for Periodontal Pockets.”

Emmett Beckley, D.D.S., St. Joseph, Missouri—“Full Denture Prosthesis.”

Group Captain Frederick F. Tisdall, M.D., R.C.A.F., Toronto—“Clinical Evidence of Nutritional Deficiencies.”

George A. Morgan, D.D.S., Toronto.

J. H. Johnson, D.D.S., Toronto.

J. Fred Kennedy, D.D.S., London—“Symposium on Dental Oral Surgery.”

Ten executive and three special meetings of the council were held during the year to take care of the business affairs of the Academy, also many sub-committee meetings.

The Winter Clinic under the chairmanship of Dr. Harold Swales was a notable success, both as to quality and choice of clinics and attendance. The total registration reached the new high of 646, of this number 107 were out-of-town dentists. There were 13 Group Clinics presented at the morning and afternoon sessions and 33 Table Clinics in the evening. The Limited Attendance Clinics were early subscribed to capacity.

An excellent piece of work was done by The War Service Committee under the untiring leadership of Dr. Howard Graham. 347 boxes were sent overseas and this remembrance from home was greatly appreciated by the army personnel.

A well organized programme of Dental Health was conducted by the Dental Public Health Committee under the able chairmanship of Dr. E. A. White. Speakers gave talks to undergraduate nurses, Home and School Clubs, Red Cross Meetings, and other groups.

At the request of the Dental Public Health Committee of the Ontario Dental Association, The Academy Council assumed responsibility for Dental Public Health activities in Toronto.

A strong protest, drawing attention to the discrepancy between the fee authorized by the Government for Dental services required by discharged soldiers and the fee named by the practitioner to whom these cases are referred for treatment, was drawn up by the Dental Public Health Committee and forwarded to the Canadian Dental Association for consideration.

The participation of the Fellows of the Academy in the “Plan for Hospital Care”, which is sponsored by The Ontario Hospital Association, was successfully arranged by Dr. Charles McLean. 140 applications were received admitting the dentists as a group to this plan. Benefits commenced as of December 1st, 1944.

Ash-Temple Repair Department

Any time you are in need of **DENTAL EQUIPMENT OR REPAIRS**

*Ash-Temple Service can meet your
requirements to the smallest detail*

From 1895 to 1945, we have been serving the dental profession. During these years, more and more names have been added to our long roll of satisfied clients.

Our success can only be attributed to the Quality of our merchandise, our thorough investigation of anything that is new in the dental field, and the scrupulous attention our experts pay to even the smallest repair item.

Ash-Temple offers you a skilled service covering every possible need of the modern practitioner. It is at your command at any time.

**Half a century of Service
to the Dental Profession**

BRANCHES

Montreal . Ottawa . Hamilton . London . Winnipeg
Regina . Calgary . Edmonton . Vancouver . Victoria

It was unanimously approved by the Council that the Past Presidents of The Toronto Dental Society, which society preceded the present Academy, be identified hereafter as Past Presidents of this Academy. Further details appear elsewhere in a separate report.

The Academy Prize of \$100.00, granted to The Faculty of Dentistry, University of Toronto, in order to stimulate student interest in Dentistry for Children, was awarded to W. A. Branch who graduated in July 1944. The grant of \$100.00 for the year 1945 has since been forwarded to the Bursar.

In Retiring from the Presidency, Dr. Skilling thanked the council for their support during the year and regretted the loss to the council of two retiring executive members, Dr. Charles Soules and Dr. Stewart Wilson who had been of great assistance to the executive.

All of which is respectfully submitted.

H. C. BLISS,
Secretary.

REHABILITATION

The War Service Committee is actively working on the rehabilitation problem. Two letters have been sent out, one to members of the Dental Corps from Toronto and district, and one to civilian dentists of the same locality.

The aim of these letters is to assist in the re-establishment of the officers retired from the corps.

In addition, the Committee has arranged to tender dinners every two months to officers retired during that interval. The first dinner will be held Monday, October 1st, for all officers eligible at that date. The place will be announced later.

WAR SERVICES COMMITTEE.

OUR TASK IS NOT YET FINISHED

It is devoutly hoped that by the time this appears in the bulletin the war throughout the world will be over. Even if it is, our task is not yet finished. With the termination of hostilities our confreres with the armed forces will be sent farther and farther afield with armies of occupation. Then more than ever they will need the help of the War Services Committee and the cheer and necessities which the overseas boxes supply.

Owing to your very generous response the committee finds itself in the happy position to be able to meet all present demands. However, should the necessity arise we feel quite confident that you will again come to our aid.

HOWARD GRAHAM,
Chairman, War Services Committee.

Diamonds in Dentistry

The mining of diamonds originated before 200 B.C. and down through the ages they have remained the hardest substance known to man. Almost from the beginning of recorded time the diamond was the object of romance, mystery, fantastic legend, treachery, violence and war. To-day, 75% of all diamonds are used industrially, so it is not surprising to find the diamond assuming another important role *in dentistry*.

THIS YEAR, celebrating a half century of service in the dental field, it is fitting that the use of diamonds in mounted points, disks and wheels, is backed by the J. Bird Moyer Company. Moyco Diamond instruments have been proved. Experience shows they cut enamel and dentine accurately and with precision. With proper care they give long and efficient service.

Every Case Can Be a New Hue Case

Every tooth on every case pictured here is a New Hue Tooth—functionally correct, esthetically beautiful. Whatever the case, whatever the design, you can give the patient the unsurpassed naturalness which only translucent, fluorescent Trubyte New Hue Shades can offer.

Make your selection from

DOMINION DENTAL'S TOOTH DEPT.

An ever-increasing number of dentists, when they think of teeth, think immediately of our Tooth Department. Why? Because they know we stock only quality products (like the complete Trubyte New Hue line) and because their requirements are fulfilled intelligently, accurately and, even in these uncertain times, with reasonable promptness.

There's No Magic

**IN LEARNING TO
SPEAK
EFFECTIVELY**

There is nothing mysterious about the art of public speaking. Reilly training makes it simple and easy—in your spare time. You can become a top-notch speaker, in popular demand, at your lodge, club and other meetings.

DENTISTS

Modern life has become more co-operative and associational and one of the finest assets any professional man can have is the ability to speak in public. Many well-known dentists have already benefited from the Reilly Course. You too can profit by speech training. Telephone KI. 6424 for information regarding evening classes, under the friendly guidance of Leonard M. Reilly. Membership strictly limited to permit personalized coaching.

MACLEANS TOOTH PASTE

It is not claimed that Macleans Tooth Paste will produce healthy teeth cure pyorrhoea or even arrest the development of this disorder. It is offered for what it really is, namely, a first-class dentifrice eminently suitable for regular use by everyone. It will keep healthy teeth clean, and thereby help towards maintaining their condition and appearance.

PHENSIC

A tablet preparation that is eminently suitable for the relief of pain resulting from tooth extraction, headaches, neuritis, neuralgia, colds, etc. The four active ingredients in Phensic are quickly absorbed into the system, bringing relief almost immediately and with complete safety.

Phensic not only brings comforting relief from aches and pains, but also reduces fever and soothes jangled nerves.

These Products Used Successfully by Millions in Great Britain

Macleans Tooth Paste and Phensic are manufactured in Canada by J. C. Eno (Canada) Limited, Toronto, Ontario, makers of world-famous Eno's "Fruit Salt."

Airkem

CHLOROPHYLL AIR FRESHENER

A "FIND" FOR DENTISTS' OFFICES

At last—Nature's great secret . . . her method of keeping outdoor air fresh and invigorating has been discovered! Thanks to recent scientific study and research—Airkem is the successful combination of Chlorophyll, "activated" for greater potency, with aromatic substances extracted from plant life . . . and so, efficiently creates a fresh-air effect indoors!

AIRKEM IN YOUR OFFICE MEANS . . .

. . . the elimination of undesirable antiseptic odors! Just a bottle of Airkem . . . and you will have fresh air, completely free from objectionable working odors, in your office the whole day long. Not only you, but your nurse and clientele, will enjoy this pleasanter, ever-fresh atmosphere!

Obtain Airkem through your local Supply House.

Progress?

Through the application of tried-and-true methods it is often possible to hold our own and sometimes this is called "treadmill progress" . . . moving but not forward. Over the years, many new dental developments have evolved and it has been through the application of these that Allen & Rollaston have made *forward* progress.

In our Laboratory, we have strived to keep pace with every new development, every new technique that could improve our methods. Continuously for over thirty years, we have strived to grow with the healthy growth of dentistry. To-day, as far as we are physically able, we offer to the dental profession, the benefits of long experience linked with the most modern up-to-date techniques.

An Announcement regarding

TOOTH PASTE - TOOTH BRUSHES

J. S. Laing Agencies Limited has been appointed exclusive sales agents for Hutax Tooth Paste, Powder, and Hutax Tooth Brushes. An aggressive merchandising programme has been planned for these products. New, and more attractive cartons have been designed to give them more favorable display. Starting with the more important cities, Hutax Tooth Paste and Tooth Brushes will be supported by regular advertising and energetic sales effort will be maintained with the retail trade.

Because of the high standard of quality of our products, and because of the high ideals of the Association, it necessarily follows that Hutax Products should, and will receive the full support of the Dental Profession.

DENZYLOR

In 3 Forms

SPECIAL NOTICE TO THE DENTAL PROFESSION

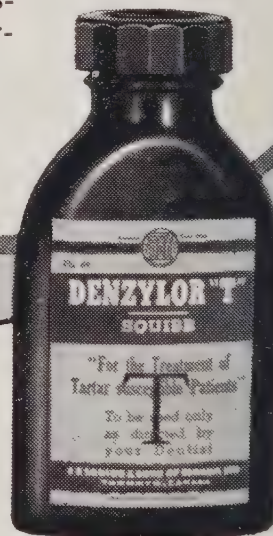

GENERAL PURPOSE

Denzylor "General Purpose" is a composite formula designed to have in limited degree the characteristics of both Denzylor C and Denzylor T. It is intended for use when there is no marked predisposition to the development of either caries or calculus.

After research studies including extensive clinical observation, at the Faculty of Dentistry, University of Toronto, it was decided that the original formula of Denzylor manufactured by E. R. Squibb & Sons of Canada Ltd., should be modified and brought into line with new developments in the field, and that in addition two specific preparations should be developed, one for the treatment of Caries Susceptible Patients, and one for the treatment of Patients with excessive Calculus (Tartar) formation.

C FOR CARIES

Denzylor C is suggested for those patients showing a marked susceptibility to Dental Caries, particularly of the cervical type, because of its tendency to create on the tooth surface a condition which persists for some time and tends to counteract the factors creating a predisposition to caries and to prevent those factors from functioning.

T FOR TARTAR

Where the patient shows a special predisposition to Calculus formation, Denzylor T may be prescribed. It has a tendency to inhibit Tartar formation by creating around the tooth surfaces an environment unfavourable to the development of new deposits and conducive to the lessening of existing ones.

E. R. SQUIBB & SONS OF CANADA, Ltd.
MANUFACTURING CHEMISTS TO THE MEDICAL PROFESSION SINCE 1858

COSMETIC VALUES

The cosmetic value of good-looking teeth is often overlooked by patients who dread the drill.

Just as much perhaps as the mere male tends to deprecate the value of his personal appearance.

But you know—and we know—that how you look has a definite bearing on how you feel.
